

# Machine Guarding

Expanded metal is well-suited for machine guards and security measures of all sizes. It is available in a variety of ferrous and non-ferrous metals, as well as a range of mesh sizes.

## Walkway

Metalex Open-Grip® safety grating is the optimal choice for industrial walkways. Circular gripping delivers slip resistance even through weathering, and it is self-draining to stay clear of dirt and debris.

## Stair Treads

Metalex Deck-Span® grating features a unique diamond configuration that allows for the passage of light and waste materials, plus slip resistance in all directions.
